

EMPOWERMENT LLC ✨ invites you to become a cared for member in our medical/wellness mobile practice!

A new medical model of care where tradition meets modern...Direct Primary Care. 👍

Tired of calling your doctor's office and waiting on the phone or being answered by a recorded message?

Tired of waiting in the doctor's waiting room until your name is called? 😞

Tired of then again waiting in the doctor's exam room? 🤯

Tired of being asked the same questions again and again by the doctor's staff and then doctor again? 🕒

Tired of co-pays?

Tired of feeling rushed in and out of the doctor's office?

If you answered yes to any of the above questions you maybe interested in

Where...

- ✓ You have your doctor's personal cell phone number to contact 😊
- ✓ Appointments same or following day available
- ✓ Your vital signs are always taken by your doctor
- ✓ Your doctor comes to the comfort of your home
- ✓ Your doctor doesn't care for thousands of patients but rather a few hundred only
- ✓ Courtesy visits to specialists if necessary
- ✓ Visits lasting 30-60 minutes so you feel heard and there is enough time 🕒
- ✓ No more copays
- ✓ Unlimited telemedicine visits during working hours

- ✓ Discounted labs 📄, finding discounted medications 💊, certain procedures for FREE and your doctor may also draw your blood
- ✓ You take walks/exercise 🏃, go food shopping with your doctor
- ✓ Food preparation classes, classes on health topics in person or virtual with the doctor or other guests
- ✓ Documentary/book club, potlucks 🍉
- ✓ Doctor who cares, and promotes being healthy not just treating disease
- ✓ The fundamentals of health are optimizing our dietary, exercise, sleep, stress and other elements in our lives, a true advocate for your health! 😇

My intent is to inspire, motivate, support and encourage you to become proactive about your health needs and foster a sense of spirituality, self care and kindness. 💕

Price transparency is lacking in today's fee for service medical model. Imagine going to the grocery store and not knowing the prices of the groceries, nor the end cost when you are checking out 😞. This never made sense to me. That said, yes, people need health insurance for specialized and emergency/catastrophic care but not for routine health maintenance. There is a reason your car insurance doesn't pay for wiper blades and tires. I will not bill your insurance for my services. I do not want a third party dictating what, when and how I treat my patients. My relationship with you is individualized, unique and sacred. ✨

My price is \$229 a month for all of the above and more COOL. THE FIRST 100 customers to enroll will get a discounted price of \$199 a month guaranteed for the first year of care.*

People spend anywhere from \$50 - 300 a month for their cells phone or cable. Having a doctor who cares on speed dial?? What are your priorities in life? ❤️ .

If any of the above, feels right, curious? You want to know more? You want a true health advocate? Call me directly for a 30 minute free appointment to learn more @ 978-308-9830 or go to my website, empowermentdpc.com.

Sincerely,

Alon Sitzer MD. 🥑

Family medicine board certified. Lifestyle medicine advocate. Married and father of 2. And much more....

* If you end you membership prior to the 1st year you will lose the discounted price
